DANNY MORGAN
SYMBIOTIC: FORM & COLOR
SEPTEMBER 6 – OCTOBER 6, 2018

DENISE BIBRO FINE ART is pleased to announce an exhibition of Danny Morgan's paintings, ***Symbiotic: Form & Color***, in its Gallery II space, September 6 – October 6, 2018.

Morgan, originally from Kentucky, has spent most of his life in Cincinnati and Florida as a successful artist and musician. Prior to becoming a professional at both; he received a degree for art at Kentucky University and subsequently taught art. His calling for music and art beckoned him to create his own unique and individual path. After having his own successful band and playing with the infamous Beach Boys he settled his roots in Sanibel, Florida.

Danny Morgan's work is full of chords of color, like the music he loves and plays. He is inspired by the beat and temper of music as well as the nature that surrounds him. His palette is primarily light and airy. His compositions are often comprised of juxtapositioned areas of color. The nuances and trajectory of his compositions are refined by various stylized brush strokes. All of his works resonate a fine sense of place, time and experience.

Morgan's mission is not to dictate the meaning of the chords in his compositions, but is to create a colorful, visceral scored experience for the viewer. His paintings depict transitional space between music and color coming together into visual form. The viewer interprets his or her own intellectual, emotional, and visceral response to each work.

There will be a reception for the artist, Thursday, September 6, 6-8pm. The artist will be present.

This will be Danny Morgan's third solo exhibition at Denise Bibro Fine Art. He has shown in several galleries in Florida and most recently had a solo show at the Indian Hill Gallery in Cincinnati, Ohio. He has also taught Fine Arts in Ohio.
